- SCRUM Agile Methodology
- Object Orientation (OOP)
- MVVM
- MVC
- Design Patterns
- Web accessibility
- UI/UX

#### Languages

- Inglês (Intermediário)

### EXPERIENCE

#### Software Developer - O-PitBlast

*March 2022 - April 2023*

At a 3D simulation software startup, I worked on an underground mine project. As a developer, I contributed to the efficient creation of new features, user interfaces, writing clean code and applying design standards. I actively participated in meetings, facilitating the understanding of requirements, and carried out significant structural refactoring, implementing new tools to the project.

**Tech Stacks:** C# | XAML | XML | WPF | GIT | VISUAL STUDIO | AZURE DEVOPS

#### Developer - UniFBV Faculty Digital Laboratory

*September 2021 - November 2021*

A project for the UniFBV faculty research laboratory together with the Graphic Design and Law courses, we created an informative web page about the LGPD Law. As a developer, I participated and supervised the production of the User interface, facilitating the work of the front-end team, assembling the interface structure.

**Tech Stacks:** REACT JS | HTML | CSS | JAVASCRIPT

#### Landing Page - Focus Digital Marketing

*March 2024*

Freelancer work in a digital marketing accessory company, the work was carried out in direct contact with the company owner, meetings were held to decide what design would be made on the Landing page and also after the page was finalized, contact was maintained to make changes.

**Tech Stacks:** Git | HTML | CSS | JAVASCRIPT | BOOTSTRAP | JQUERY

## Landing Page comafago.com - Afago

*June 2024*

I work as a Freelancer for a company that sells breakfast baskets as orders, the work was carried out through an intermediary between me and the client, meetings were held to decide which design would be made on the Landing page and also after the page was finalized, contact was maintained to make changes.

**Tech Stacks:** Git | HTML | CSS | JAVASCRIPT | BOOTSTRAP

## ● EDUCATION

*2022 Front-end Development Training - Alura course platform*

*2023 Training in Accessible Web Applications - Alura course platform*

*2023 UI Design Training - Alura course platform*

Portfolio: <https://pedrovviana.github.io/portfolio-PedroVanlume/>

*Prezado,*

*O Pedro Van-Lume trabalhou na nossa empresa no período compreendido entre março/22 e abril/23 desempenhando a função de Desenvolvedor .Net. Durante todo este período desempenhou todas as suas atividades de maneira eficiente e profissional.*

*Sempre demonstrou a sua competência profissional, bem como facilidade na apresentação de novas atividades e ideias e na transmissão dos seus conhecimentos à sua equipa.*

*O motivo pelo qual deixou de fazer parte da empresa foi devido a uma reestruturação geográfica pela qual passou o nosso quadro de funcionários, havendo a extinção de diversos postos de trabalho.*

*Portanto, venho por meio desta carta de recomendação*

*reafirmar*

*o nosso entendimento de que algumas das suas maiores qualidades são: competência técnica como desenvolvedor, honestidade, capacidade e idoneidade, pelo que entendemos ser a nossa obrigação recomendá-lo como uma ótima contratação para a sua empresa, na qual certamente terá muito a acrescentar.*

*Sem mais me despeço.*

*Sérgio Fernandes, Development Manager.*
